## LEADERSHIP RECORD

### SEMINAR PROJECT LEAD

November 20 - December, 19 2024

**Format:** Interactive Seminar with Presentation, Group Discussions, Kahoot Quiz, Ice Breaking, and Prize Distribution.

- As the project lead, I successfully organized and designed an interactive seminar that integrated educational presentations, a Kahoot Quiz, and small group discussions to raise awareness about responsible gadget use among high school students.
- A central highlight was the "**Bijak Menggunakan Gawai**" or "**Mindful Tech Habits**" poster, which symbolized self-control over technology and emphasized safe digital habits, cyberbullying awareness, and content discernment.
- Despite challenges, the seminar effectively increased awareness of gadget risks and promoted healthy screen time. This experience significantly honed my leadership, planning, and problem-solving skills, underscoring the value of teamwork in educational initiatives.

### SEMINAR PROJECT LEAD

March 2023

**Format:** Interactive Seminar with Presentations, Q&A, and Prize Distribution

- As the Project Lead from the Academic & Leadership Division, I organized and facilitated a cross-division seminar titled "**Fun Learning Starts with Good Manners**" in collaboration with the Character & Social Values Division.
- The seminar aimed to prepare students for exams by promoting effective study habits balanced with respectful behavior and learning etiquette, fostering a positive and productive learning environment.
- Although minor challenges like miscommunication arose, the seminar remained effective in encouraging academic readiness and emotional balance among students. Coordinating this initiative allowed me to further develop my communication skills, while deepening my appreciation for empathy and character-building in educational settings.

### MURAL COMPETITION PROJECT LEAD

October 14-28, 2022

**Format:** Collaborative Mural Painting for Sumpah Pemuda School Competition

- As the project lead, I directed and coordinated the mural creation process for our school's Sumpah Pemuda mural competition. I provided artistic guidance, ensured progress aligned with our timeline, and actively contributed to the hands-on painting process to foster collaboration and efficient execution.
- The mural served as a vibrant visual tribute to Indonesia's youth unity spirit, creatively illustrating cultural diversity, national pride, and the power of collective identity. This experience significantly strengthened my leadership, visual communication, and project management skills, while learning the importance of balancing vision with teamwork in artistic initiatives.

## ORGANIZATION RECORD

### STUDENT COUNCIL – ACADEMIC AFFAIRS

November 2022 - November 2023

As a dedicated part of the Student Council, I was instrumental in coordinating various school-wide initiatives aimed at enhancing academic quality and student development. One of my primary contributions involved designing and organizing diverse events and workshops crafted meticulously to not only develop students' essential academic skills but also to cultivate vital social competencies. Furthermore, I played a crucial role in the successful execution of academic programs during the **Student Orientation Week**, ensuring a seamless transition for new students.

- This Student Orientation Week received **95% positive feedback**, underscoring our team's commitment to creating a welcoming and practical experience.

Beyond academic-specific initiatives, I was actively involved in organizing significant school-wide events, including Teacher's Day and seminar. For **seminar**, I led the planning and execution of programs designed to honor and appreciate our educators, fostering a stronger community bond.

- During my leadership in **seminar**, I received high participation rates, with over **80% of students actively engaging** in our activities.

This extensive experience significantly enhanced my abilities in coordinating complex projects, managing logistics across various stakeholders, and effectively engaging a large audience to achieve collective objectives, ultimately strengthening my leadership and problem-solving capabilities in diverse environments.

## ORGANIZATION RECORD

### BROADCASTING - CONTENT CREATOR

August 2022 - June 2024

As a Content Creator within the BW Broadcasting Media (BBM) team, I played a pivotal role in shaping our school's dynamic digital presence. My core responsibilities encompassed the entire content development lifecycle, from conceptualizing compelling ideas and **drafting detailed scripts** to **designing comprehensive storyboards** for various school creative content production projects. This included regularly producing engaging recurring programs such as insightful talk show and informative podcasts to resonate with our diverse target audience.

In total, I contributed to the production of **three distinct video projects**, including taking on a cameo role in one of them.

- **Teacher's Day Podcast Innovating to Educate Alpha Generation** | [Watch Here](#)
- **Kartini's Day : Proud To Be A Women and Self Improvement** | [Watch Here](#)
- **Pentingnya Nasionalisme Bagi Generasi Muda** | [Watch Here](#)

I particularly valued the collaborative aspect of my role, working closely with my peers and, notably, in cross-team initiatives with the **Student Council and Broadcasting teams** to significantly enhance our school's overall online visibility. This extensive experience not only honed my technical skills in content creation, strategic planning, and digital engagement, but also profoundly reinforced the critical importance of effective communication, thoughtful delegation, and innovative problem-solving in a collaborative environment. Furthermore, it instilled in me a deep appreciation for actively listening to diverse ideas and respecting varied perspectives, essential for achieving the best possible outcomes in team-driven creative projects.

## ORGANIZATION RECORD

### CODING

August 2024 - Present

My journey and passion for coding began even before I joined the club, as I had **actively pursued coding independently** since 10th grade. This dedication found its **official "home"** in my 12th grade year with the establishment of the Coding Club, which I immediately joined to further deepen my technical expertise and passion for digital solutions. Through structured learning and hands-on application within the club, I rapidly built foundational skills and establishing a robust base in programming and web development. As an active member, I contributed to impactful collaborative projects. Within the club's three divisions, my partner and I were primarily responsible for managing and promoting the school's official website. Our dedication to ensuring up-to-date content, improving functionality, and troubleshooting technical issues, alongside consistent promotion, significantly boosted engagement:

- **A 30% increase in website engagement from both students and teachers.**

Beyond collaborative efforts, I independently developed personal projects like the CUBE app and a functional Weather app. These ventures honed my problem-solving and programming skills, leading to a notable:

- **A 15% improvement in project completion efficiency.**

My passion for coding also drove me to independently design and build my personal website and portfolio page, which serves as a dynamic showcase of my continuous learning progress and developing capabilities in software engineering and web development.
